

Abstract of the Disclosure

A composition comprising:

- (a) one to three bioactive agents; and
- (b) a vehicle comprising;
 - (i) a modified liquid carrier, and
 - (ii) an un-modified liquid carrier

wherein the ratio by volume of the modified liquid carrier to the un-modified liquid carrier is between 0.00001:99.99999 to less than 0.01:99.99, that provide the composition with predictable sustained-release properties and wherein immediately after manufacture of the composition, said composition can be administered to a host such that the one to three bioactive agents are released to the host on a sustained basis.
